

# How to Better Connect With & Influence Others

JANUARY 16, 2019 | 11 a.m. ET

## About this Webinar

We are busier than ever, doing more than ever. Let's take some time to slow down, take a deep breath and learn more about ourselves and other people. Let's learn how to make a greater impact on our own lives as well as the lives of other people.

In this one-hour webinar, you will learn tips, tidbits and tools that will help you to increase your self-awareness (emotional intelligence) and also how to be more aware of those people around you (social intelligence). Our goal is to give you some tools and maybe have some fun along the way. We believe that if you are having fun, you are more apt to learn, grow and change behavior. You will learn a bit about Neuro Linguistic Programming and how our brains are wired to send and receive information. You will learn many tips, tidbits and tools that you can take out and start using immediately to have stronger relationships and greater impact in the world.
