

MILITARY CAREGIVING
Military Families Learning Network

WEBINAR
PROFESSIONAL DEVELOPMENT

TRICARE® Autism Care Demonstration

December 7, 2016 | 11:00 a.m. EDT | Presenters: Richard Hart & Dori Rogut

OVERVIEW

Autism spectrum disorder (ASD) affects a wide range of essential human behaviors such as social interaction, communication, imagination and relationships. Identifying health coverage, access to care, and eligibility for various services can be difficult to navigate for many families who are caring for individuals with ASD. In this webinar, presenters from the Defense Health Agency (DHA) will provide an overview of Applied Behavior Analysis (ABA), in addition to advice for service providers and military families on how best to assist beneficiaries under the Autism Care Demonstration (ACD). ACD provides supplemental services to qualifying dependents of active duty service members, retirees and certain National Guard and Reserve members.

PRESENTERS

Richard Hart
Senior Health Policy Analyst
Health Plan Execution and Operations
Defense Health Agency (DHA)

Dori Rogut M.S., PMHNP, BC
Senior Policy Analyst
Behavioral Health Benefits and Standards
Clinical Support Division, Condition-Based Specialty Care
Defense Health Agency (DHA)

CONTINUING EDUCATION

The Military Families Learning Network (MFLN) - Military Caregiving concentration will apply for 1.0 CE credit from the National Association of Social Workers (NASW). A certificate of completion will also be available for participants interested in receiving training hours.

HOW TO JOIN**

To join the webinar use the 'Event Location' link below and follow all directions within this site. The webinar is hosted by the All Partners Access Network (APAN), but will also be available through YouTube Live. By using APAN attendees will be able to participate through direct interaction with the presenter and other audience members. For a broadcast only webinar, participants have the option of connecting via YouTube Live.
