## RESOURCES FOR ADDRESSING FOOD ACCESS FOR MILITARY FAMILIES

### EVENT LOCATION

<https://militaryfamilieslearningnetwork.org/event/69322/>

Food insecurity describes a household's inability to provide enough food for every person to live an active, healthy life. Food insecurity is one way we can measure and assess the risk of hunger. In the United States currently, 1 in 9 people struggle with hunger.

This webinar discusses the resources available through the Extension and Land Grant university system and the Defense Commissary Agency (DECA) to increase proper nutrition for those working with vulnerable military service members. Then we will discuss specific data from research around food insecurity among Veterans. The webinar also includes information on federal programs available to increase food access for military families, including the Supplemental Nutrition Assistance Program (SNAP) and the Family Subsistence Supplemental Allowance.

### PRESENTERS

Dr. Karla Shelnett, Associate Professor, Extension Nutrition Specialist, and Registered Dietitian, Department of Family, Youth and Community Science, University of Florida.

Dr. Shelley MacDermid Wadsworth, Distinguished Professor of Human Development & Family Studies, Purdue University.

Dr. Heather Eicher-Miller, Associate Professor, Purdue University.
